Offline applications

Sites: You do not necessarily need a site licence for each computer you install our software on. You might have a single site licence but install the software on a network or on an office computer and a laptop you take out. What matters is usage. - e.g. if it is likely to be used by two different people at the same time, you need a licence for 2 sites (and so on). If you have physically distinct offices, you need (at least) a licence for each office.

Replacement CDs: £10 + VAT
