

FUNDRAISING AND IT

a funding information leaflet from *funderfinder*

IT is now an essential tool in many aspects of fundraising from raising funds online to managing grants and donations with databases. There are numerous systems that can be bought or you could devise something yourself. The following are resources that may be useful.

Websites

www.fundraising.co.uk includes a list of suppliers of software for fundraising with links to their websites, books on fundraising and a free email newsletter. It also has a list of forthcoming events and examples of internet fundraising.

www.itforcharities.co.uk lists suppliers of all sorts of IT to charities including fundraising.

Books

Building a Fundraising Database using your PC: A step by step guide for small voluntary organisations by Peter Flory, DSC/CAF How To Guide, pub. DSC, 2nd ed., 2001, £12.95, ISBN 978 1 900360 92 0. For DIY enthusiasts using Microsoft Office.

Fundraising Databases - and introduction to the set up and use by Peter Flory, pub. Quick Guides, £5, ISBN 978 1 905053 10 0. Provides guidance on choosing and using a fundraising database effectively. Available from DSC.

See also the Technology booklist section of www.fundraising.co.uk

Courses

The websites listed above have sections on forthcoming events.

Data Protection

If you are collecting any personal information for fundraising and storing it, which is quite likely, you'll need to know about the Data Protection Act. The Office of the Information Commissioner website is www.ico.gov.uk

Further information
