

To get your updates over the Internet

If at any time you'd like to switch to receive electronic updates over the Internet, go to the Options drop-down menu in GIN and click on **Options**.

The **Updates** tab tells you what you have currently chosen.

Make sure you are online and then click the box for **Future FunderFinder GIN updates via the Internet**.

Decide whether:

- you'd like GIN to go and look for updates **automatically** when you run GIN or
- you want to click a button (the **manual** option) to make GIN check for updates.
